MONEY NEEDED FOR THE COMING YEAR.

We recommend the following amounts be raised for the coming school year, July 1, 1922 to June 30, 1923:

For support of elementary schools, including textbooks, supplies and flags, and for expenses of administration (this amount includes the amount required by law),	$5,400.00
For salaries of district officers, including truant officer,	130.00
For high school and academy tuition,	800.00
For per capita tax ($2.00 per pupil),	188.00
Total to be raised,	$6,518.00

During the current year we have been obliged to maintain one more transportation route than was anticipated. We estimate however, that our present balance will be sufficient to continue the schools for the remainder of the year with the exception of the tuition bill at Kezer, the amount of which we do not yet know.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

February 17, 1922.

Under the old system of supervision the districts of the union apportioned the superintendent's time among them. Under the law of 1919 they can make no such apportionment as the whole purpose of the law is to equalize school privileges.

I have been interested however, to study how my time has been spent among the several districts. While the superintendent does other work besides visiting schools, that part of his work is easiest to record and may form a fairly satisfactory basis for estimating how his entire time has been apportioned. The following table is for the two and one-half years of the existence of the supervisory union:

DISTRICT.	Number of teachers.	Year 1919-20.	Year 1920-21.	Half year 1921-22.	Total.	Average per teacher.
Penacook	17	180	186	135	501	29
Boscawen	3	32	33	26	91	30
Canterbury	4	31	34	31	96	24
Loudon (For 2 years)	8	58	67	43	168	22
" (For ½ year)	7	.....	.....	.....	.....	.....
Salisbury (For 1 year)	5	43	28	24	95	26
" (For 1½ years)	3	.....	.....	.....	.....	.....
Total		344	348	259	951	26

To equalize the results of the superintendent's work we may say that roughly the average visits per teacher should be about the same for the various districts. By this standard the table would indicate that Loudon has suffered somewhat, Canterbury slightly, and that Boscawen and Penacook have received somewhat more than their share of the superintendent's attention.

If the *time spent* in a town while visiting schools should be considered, the comparative compactness of the several districts enters into the problem. By such a standard, Penacook would seem to be the neglected district and Loudon would not be below the average. The table also roughly indicates the increasing time available for school room visiting now that the pioneer work in organization has been accomplished and the secretary is held responsible for a great amount of the office work.

During the school year of 1920-21 I also visited Kezer Seminary and sustained the same relation to this school as to the public schools, certifying its graduates to high school at the close of the year. It was discovered that our supposed authorization for this work was based upon a misunderstanding of the policy of the state board of education and I have withdrawn from any official connection with that school.

The schools opened last September with two new teachers and at the Uplands there have been three different teachers this year. It is somewhat easier than last year to find teachers, but finding and keeping good teachers for remote country schools is still a hard task.

During the year since the last report was written, school buildings have been improved as follows:

The Center school has been shingled on one side.

The lighting at the Carter school has been improved by moving one window. A window has been placed in

the boys' toilet, and the entire main building has been shingled.

At the Uplands school the seats have been turned to face in the opposite direction and the windows in front of the pupils are covered with blackboards. The ceiling has been painted white.

The shed and boys' toilet at the Center are still in bad condition.

As to the curriculum—we are continuing to teach and to drill on reading, writing, arithmetic and spelling. In History, we have added the study of Ancient History and English History in a simple form for intermediate grades. In Physiology less anatomy is taught and more pains are being taken to instill habits which tend towards a healthful life. We have one graduate from last year's eighth grade who is doing a little advanced work in Latin, Algebra and History.

In Grammar and Arithmetic a variety of texts have been in use and should continue to be in use. A single textbook has been adopted however, in each of these subjects, which is chosen whenever new books need to be purchased.

Respectfully,

GEO. W. SUMNER.

LIBRARY TRUSTEES' REPORT

We feel that a word of explanation is due from your trustees with reference to their failure to erect the building provided for in the will of the late L. Maria Elkins. When the funds first became available we were in the midst of the World war during which and for a considerable period subsequently, building was out of the question. The location was a vexing problem and finally after long negotiating a building spot was secured that seemed to meet the requirements.

A contractor was consulted who submitted plans that seemed to meet our needs but the cost was beyond our means and the Court was petitioned for permission to use a portion of the funds otherwise bequeathed.

This petition was denied and your trustees waited in the hope that building conditions would improve and the accumulated interest would make building possible.

Then came the bequest of Milo S. Morrill for a receiving tomb, the unexpended balance of which could be used for a library. This balance will soon be available and building conditions are not likely to improve in the near future so that now there seems no good reason for further delay, and your trustees feel that such funds as are available should now be used in the erection of a library that will be a credit to the town, a convenience to its patrons and a lasting memorial to the donor.

ELIZABETH F. HOUSER,
JOSEPHINE M. BROWN,
LEROY A. GLINES,
Trustees.

MONEY NEEDED FOR BALANCE OF CURRENT YEAR

The district has been obliged to pay the entire expense of running the Kezer school this year. This has been a financial burden on which we did not plan at the time of the last district meeting. We are therefore obliged to ask you to raise three hundred dollars for continuing the schools for the current year ($300).

MONEY NEEDED FOR THE COMING YEAR

(July 1, 1923, to June 30, 1924)

We recommend that the district raise the following amounts:

For the support of elementary schools, including text-books, supplies and flags (this amount includes the amount required by law),	$5,700.00
For salaries of officers,	130.00
For other expenses of administration,	340.00
For high school and academy tuition,	715.00
For per capita tax,	162.00

REPORT OF SUPERINTENDENT OF SCHOOLS

February 15, 1923

To the School Board and Citizens:

Perhaps you will be interested in a comparison of various items taken from the attendance tables of the several towns of this Supervisory Union:

School Year, 1921-22

	Boscawen.	Canterbury.	Loudon.	Salisbury.	Penacook.	Entire Union.
Total number registered	58	73	127	68	643	969
Average membership	45	63	95	57	466	726
Per cent. of attendance	91	82	92	85	93	.....
No. cases of tardiness	315	410	325	174	389	1,613
Cases tardiness per pupil of average membership	7	6.5	3.4	3	0.8	2.2
No. teachers employed	3	4	7	3	17	34
No. visits by superintendent	46	50	75	42	206	419
Average visits per teacher	15	12	11	14	12	12
No. visits by school board	14	12	46	19	25	.....
No. visits by others	231	115	245	294	1,078	.....

Current Year, 1922-23

New teachers in September	2	1	1	1	6	.....
Teacher changes during year	1	1	0	0	1	.....
Maximum teacher's salary	$850	$800	$936	$792	.....	.....
Minimum teacher's salary	800	648	576	648	.....	.....
Average teacher's salary	817	686	699	708	.....	.....

I trust that a few of the parents in Boscawen and Canterbury will note that their children have given their towns a bad tardiness record. The parents and citizens of Canterbury and Salisbury should realize that the poor attendance in their towns is wasteful of the teachers' time and the town's money.

In small New Hampshire towns, whose inhabitants are largely of old New England stock, it ought not to be necessary to employ a truant officer to drive children to school. School Boards, however, neglect their known duty if the conditions shown are allowed to continue indefinitely.

I am glad to report that changes in the teaching force last September were few and that the changes during the year have been fewer still. The salary range is from $576 per year to $936, Loudon paying the highest and the lowest salary. Only two graduates of normal schools are employed by the rural towns of the union, one by Loudon and one by Boscawen. These teachers receive salaries higher than any other teachers in the union, outside of Penacook.

Several excellent teachers are employed who are not graduates of normal schools. A number of these have recently taken summer courses. All the other teachers would receive help and inspiration from a six-weeks' course during the coming summer.

The character of instruction throughout the union is improving and will continue to improve if the teaching force can be made fairly permanent. We should plan to retain most of our teachers for another year, urging several (and requiring a few) to attend summer school. In perhaps no case would there be a gain in changing teachers unless we should be willing to pay a higher salary for the new teacher.

The institute for rural school teachers held in Loudon last Fall gave practical help to the teachers who attended. I hope that some other town of the union will try to secure such an institute during the coming year.

An old teacher who recently died in Loudon left a bequest to the school district for buying maps and globes. The income of this bequest will, in a few years' time, give Loudon an excellent supply of maps and will keep them renewed as they wear out.

Respectfully,

GEO W. SUMNER.
